Dear "Pay it Forward" Grantee

I'm awarding perpetual grants of my #1 Goldie's Secret Child Abuse Prevention E-course and DVDs. Goldie's "Stops Child Sexual Predators in Their Tracks" One predator effects 300 children, one in ten that complete Goldie's Secret e-course reveal dealing with sexual abuse and who their predator is. The other nine of ten children learn how to prevent sexual abuse.

Our campaign is grass roots, because many schools or policies no longer protect children or think it's wrong to engage in sex with children. Ten e-courses will reveal one sexual predator and this creates an opportunity to contact the predator's many other victims to get early help.

I can't in good conscience have the #1 tool and it's use limited based on politics, expense or? Thank you for choosing to protect America's most valuable and vulnerable asset our children. It's my pleasure to award you with my \$18,000 "Pay it Forward" grant of 60 Goldie's Secret e-courses: Includes: instructions, video, children's response card for after the video.

This is a personal grant from Max Thrush, and not from any business, charity or government agency. IRS gift rule (709) allows for gifts between individuals of up to \$18,000 in 2024.

These e-courses are for "private in-home use only" friends, family and the general public and not for commercial or enterprise use. Max is donating these e-courses for you to sixty churches across the U.S.A. and will send you the donation receipt for personal tax advantages. Personal tax advantages up to \$9,000 depending on your personal tax rate.

- ❖ Consult your tax professional for your actual tax advantage from this \$18,000 donation.
- ❖ Max Thrush has started the giving and asking you to please continue paying it forward.
- ❖ Please give your best cash donation to the organization that you received this offer from.

# GOLDIE'S SECRET

A Story About Child Abuse

Synopsis - GOLDIE'S SECRET is a fairytale story about Goldie who comes to live with her mother and stepfather when her real father was killed in a logging accident.

Papa Bear (stepfather) talked Goldie into a sexual relationship and he physically abused Baby Bear too!

Goldie felt she could not tell her mother because Papa Bear threatened her. Goldie finally told her mother who did not believe her - until Baby verified what was happening.

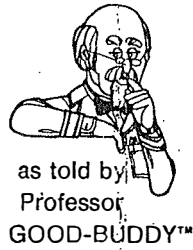

Mama Bear then confronted Papa Bear who wanted to keep it a family secret. Mama said, "no!" And said Papa needs help. She called the Child Abuse Hotline.

The story is tastefully produced and ends on the upbeat with Papa Bear agreeing to go for help and the family deciding to go on a picnic together.

The story is told by Professor Good-Buddy™, a loveable life-sized puppet who is retired and has dedicated the rest of his life toward helping people.

This video program is designed to get abused children to respond by circling a face that best describes how each child feels - after the video. Response cards and coloring books are included.

Instructions for showing this video are detailed in the Teacher's Guide - including just what the teacher may want to say and how to handle those who respond.

NAME

WHEN YOUR TEACHER ASKS, please draw a circle around the face that shows how you feel now!

After you circle the face, turn this card over. Your teacher may talk to the class about Goldie when everyone has finished.

Professor GOOD-BUDDY™ SAYS "I hope I helped each one of you today."

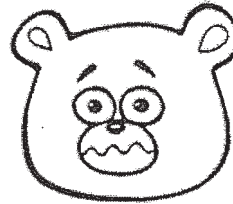

--- RESPONSE CARD ---

**I'M HAPPY**  
(because I don't know anyone who is being abused)

**I'M SAD**  
(because I know someone who needs to tell)

**I'M AFRAID**  
(because I promised someone that I wouldn't tell)

**I WANT TO TELL**  
(because I need help like Goldie did)

## CHILD ABUSE PRIMARY PREVENTION PROGRAM

Thank you for your interest in sponsoring the video tape "GOLDIES SECRET". This video tape is effective in teaching children to recognize abuse and to know what to do should it happen, as well how to avoid it.

The "GOLDIES SECRET" video tape and follow up materials are currently being used in the San Diego City Schools.

Thousands of second, third and fourth graders have been through the program, at least 10% have responded asking for help.

The presentation has been received in a positive way by administrators and teachers for the past six years. I feel the cycle of child abuse can be broken if information is made available to the students.

It is with first hand experience that I highly recommend this program to educate children in child abuse prevention.

Sincerely,

Coordinator; Child Abuse Prevention Program  
San Diego City Schools.
